*Ljepota prirode u Vašem domu!*

Utemeljena na stogodišnjoj tradiciji prerađe drva u klanjskom kraju, Dl Klana d.d. danas je jedna od vodećih europskih tvornica stolica. Osnovana 1911. godine, svoj rast i razvoj zahvaljuje povoljnoj geostrateškoj poziciji, visoko motiviranim i obučenim zaposlenicima, a prije svega dugogodišnjim pouzdanim i lojalnim kupcima iz zapadnoeuropskih zemalja kao i zemalja okruženja.

Smještena na rubu Gorskog kotara, odakle se sigurno i kvalitetno snabdijeva drvenom sirovinom, što joj, uz blizinu pomorskih i cestovnih logističkih koridora, daje prednost pred konkurenjom. Uz to, stalnim ulaganjem u inovacije, tehnologiju i ljudske resurse stvara preduvjet za kontinuirani rast i razvoj.

Iz navedenog proizlazi i izjava o misiji Društva „pravovremeno snabdijevanje kljenata najkvalitetnijim proizvodima uz najpovoljnije uvjete, uz održiv razvoj i zaštitu životne i radne okoline“.

U proizvodnom assortimanu zastupljeno je više od sto modela stolica klasičnog, rustikalnog i modernog dizajna, prilagođenog svim interijerima.

Izvedbe modela su od bukovog i hrastovog masivnog drva, u kombinacijama s različitim vrstama sjedala u masivnoj, pletenoj i tapeciranoj izvedbi.

Društvo godišnje proizvede više od milijun stolica.

Sustav upravljanja procesima reguliran je normom ISO 9001. Taj certifikat Društvo posjeduje već desetak godina. Uz taj, čitav niz godina, posjeduje i FSC®-certifikat koji potvrđuje da se koriste materijali iz poznatih izvora, a isti certifikat posjeduje i ključni dobavljač drvenih sirovina – Hrvatske šume doo.

Basée sur la tradition centenaire de la fabrication du bois dans la région de Klana, DI Klana d.d. est aujourd'hui l'un des plus importantes usines européennes de chaises.

Fondée en 1911, elle doit son développement à sa position géostratégique, des salariés très motivés et entraînés, et surtout aux clients fidèles des pays de l'Europe de l'Ouest et des pays de la région.

Située au bord de Gorski Kotar, d'où on peut assurer un approvisionnement sûr et de qualité de la matière première en bois, ainsi que la proximité des corridors logistiques maritimes et routiers, la Société a un avantage par rapport à la concurrence, et un investissement continu dans l'innovation, la technologie et les ressources humaines crée des conditions pour le développement continu.

Tout cela a comme conséquence la mission de la Société „l'approvisionnement des clients en temps voulu, par les produits de qualité et les conditions les plus favorables, tout en maintenant le développement et la protection de l'environnement vital et laboral".

En ce qui concerne la gamme de produits, il y a plus de cent modèles de chaises designées d'une façon classique rurale et moderne, adaptées à tous les intérieurs. L'élaboration des modèles est en bois massif de l'hêtre et de chêne, en combinaison avec différentes sortes de sièges élaborés d'une façon massive et tapissée.

La société produit plus d'un million de chaises par an.

Le système de la direction des processus est réglé par la norme ISO 1991, le certificat que la Société possède depuis une dizaine d'années.

Das Unternehmen DI Klana d.d. wurde aufgrund der hundert Jahre alten Tradition in der Holzbearbeitung auf dem Gebiet von Klana gegründet und zählt heute zu den führenden europäischen Stuhlfabriken.

DI Klana d.d. wurde im Jahre 1911 gegründet und verdankt sein Wachstum und seine Entwicklung der guten geostrategischen Lage, hoch motivierten und geschulten Mitarbeitern, und vor allem zuverlässigen und loyalen Kunden aus Westeuropa und den Nachbarländern.

Das Unternehmen liegt am Rande der Region Gorski Kotar, von wo eine sichere und qualitativ hochwertige Versorgung an Holzrohstoffen sichergestellt wird. Die Nähe des Meeres und der logistischen Verkehrswägen sichert dem Unternehmen einen Wettbewerbsvorteil vor anderen Mitstreitern zu. Das alles, zusammen mit kontinuierlichen Investitionen in neue Technologien und menschliche Ressourcen, schafft die besten Voraussetzungen für ein weiteres Wachstum und Entwicklung.

Aus dem Genannten kann man auch die Mission des Unternehmens ableiten, die besagt: „ rechtzeitige Lieferung an Kunden mit den qualitativ besten Produkten zu den günstigsten Bedingungen, mit einer nachhaltigen Entwicklung und Schutz der Lebens- und Arbeitswelt.“

Die Produktionslinie besteht aus über hundert Arten von Stühlen des klassischen, rustikalen und modernen Designs, angemessen an alle benutzerdefinierten Interiere. Die Modelle sind aus massivem Buchen- und Eichenholz erstellt, in Kombination mit verschiedenen Arten von Sitzplätzen in der massiven, geflochtenen und gepolsterten Version. Jedes Jahr produziert das Unternehmen mehr als eine Million Stühle.

Das Prozess-Management-System wird durch die ISO-Norm 9001 geregelt, und das Unternehmen ist schon über zehn Jahre zertifiziert nach diesem Standard. Das Unternehmen hat aber auch das FSC®-Zertifikat, dass die Verwendung von Materialien aus bekannten Quellen bescheinigt. Dieses Zertifikat hat genauso der größte Zusteller von Holzwerkstoffen des Unternehmens - Hrvatske šume doo.

Established on a centenary tradition of wood processing in the region of Klana, today DI Klana d.d. (Wood Industry Klana plc) is one of the leading European chair factories.

It was founded in 1911 and acknowledges the growth and development to its geostrategic position, highly motivated and skilled employees, and above all longstanding reliable and loyal customers from west European and surrounding countries.

It stands on the Gorski Kotar border and ensures from it a safe and quality supply of raw wood material. The vicinity of maritime and road logistic corridors gives it a competitive advantage, and, along with constant investments in innovation, technology and human resources, the Company created all prerequisites for a sustained growth and development.

The said is expressed also in the Company's mission "continuously providing clients with highest quality products at most favorable conditions, along with sustainable development and protection of the living and work environment". The production's scope of supply covers more than a hundred models of chairs of traditional, rustic and modern design, adjusted to all spaces. Models are made from solid beech and oak wood, in combination with different types of solid, braided and upholstered seats.

Every year the Company produces more than a million chairs.

The Company's process management system meets the requirements of ISO 9001, and it holds the respective certificate for more than 10 years.

For a number of years, the Company, along with their key supplier of raw wood material – Hrvatske šume d.o.o. (Croatian Forests Ltd.), holds also the FSC® certificate, recognizing responsible forestry, meaning, that materials are derived from sustainable sources.
